Career Objective

Enthusiastic and Experienced Senior Front-end Developer with a passion for creating exceptional user experiences and crafting high-quality web applications. Committed to staying ahead of the curve, I aim to create pixel-perfect designs, seamless interactions, and deliver innovative solutions that enchant users and elevate brands to new heights.

Professional Projects

- Intelligent Fire Fighter Robot (I-FFiR) as a Final Year Project
- More than 250+ projects successfully completed on Fiverr with excellent 5 star rating
- More than 20+ portfolio projects using HTML, CSS and Bootstrap.
- More than 50+ projects completed to get a full command with Javascript concepts.
- Stephen Grider Course on React to fully understand and practice Reactjs to the core.
- Daniel Scott Walter course on Figma, Photoshop and Illustrator with practice projects
- Working to get a Meta Certification in "Front End Development"
